SUMMARY OF COMMUNICATION		
<p>Talked with Tad about the Wedmoreth Alert Laboratory. We included Colleen Whalling from the CRL into our conversation. She talked about the lab's involvement in the CLP program. We agreed that the Lab could test the subsurface drum contents as the surface drums had been tested.</p>

CECOS
40 Brunswick Avenue
Edison, NJ 08810

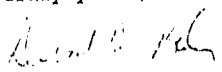

Dear Scott:

We have received a response from the E.P.A. concerning the subcontractors that were proposed to be used for lab analysis and transportation of waste materials. I have enclosed their letter which details where each transporter is acceptable. In addition, the laboratory has only been approved for organics testing. Prior to final payment we must be assured by E.P.A. that this is acceptable.

It is my understanding that CECOS anticipates off-site disposal the first week in December. Prior to this, we must be informed of who will be the final transporter and to which destinations they will be hauling to.

As always, if there are any questions, please contact me.

Very truly yours,

Deborah A. Buniski, P.E.
